WORK EXPERIENCE

Jollibee Food Co.
May - July 2016

Service Crew

CSJDM Government
Office
January - May 2024

Internship

- Designed and developed a responsive City Government Web Application using Bootstrap, following the specifications and requirements provided by my supervisor, with a focus on creating a user-friendly interface and smooth functionality across devices.
- Provided basic IT troubleshooting and support across various city government offices, addressing software, hardware, and connectivity issues to ensure smooth day-to-day operations.
- Operated and managed PVC card printing for government program, ensuring accurate data input, high-quality output, and timely distribution in support of citizen services.
- Maintained a daily inventory and tracking system for computer specifications and technical issues encountered by staff, helping to monitor hardware performance and streamline maintenance efforts.

Course Hero
